

Ariel Naranjo

Full Stack Developer

Profile

Proactive, committed and experienced customer service professional with several years of experience working in software development environments

Employment History

Full Stack Developer and Project Leader at Proto Scanner 3D, Santo Domingo

August 2024 — December 2024

Full Stack Developer and Project Leader

Led a team to develop and maintain a system for managing patient data, streamlining workflows, and enhancing operational efficiency.

Key Contributions:

- Designed and implemented **Front-end** and **Back-end** features, including: Patient registration and schedules for efficient tracking.
Automated tests, data visualization, and prosthesis management to reduce errors and improve decision-making.

Impact:

- Optimized processes, improved service quality, enabled data-driven decisions, and reduced operational costs.

Designer and tester at MediRed , remote

September 2024 — Present

Optimize the user experience (UX/UI) with intuitive and consistent interfaces.

I detected and corrected critical errors, ensuring product quality.

Improved workflows, facilitating collaboration between teams.

Education

Software development technologist , Instituto Tecnologico de las Americas (Itla), Santo Domingo

May 2022 — Present

As a graduate in Software Development, I have skills to perform in areas such as systems analysis, software design and development, database administration and development, software quality, web and mobile development, system audit, Data mining, and technical support. In addition, I am prepared to lead development projects and optimize technological processes in various industries.
